REPLY TO A. G. TALBOT, ESQ.

DEAR SIR:

Your letter of the 11th inst., to the *Somerset Democrat*, would seem to call for a reply from us. Our letter to you, giving an exposition of your connection with the Council at this place, was respectful in its tone, and temperate in its language.

Your letter is replete with the bitterest denunciations, and wears throughout a most uncongressional tone—by no means such an one as we could have expected from a man boasting of his connection with his church, and publicly proclaiming himself to be a “Christian gentleman.” But to this we shall take no exception, much less resort in the same style. We have enough of charity to pardon much to disappointed ambition, and mortified pride, and shall content ourselves, therefore, by calling your attention to the *points of issue* between us, and after offering our proofs let the public decide whether we have misstated your connection with the order or you have attempted to deceive the public.

We are not surprised at your effort to recall the public’s attention that you are a poor, unfortunate and “persecuted” man.

That sort of refuge is not original with you, and you then stated that you would make a publication, stating that you had demanded it, and it was refused. And even in your letter, now before us, you say that you have not the slightest objection to having a complete and full history of your connection with the order.

self entirely satisfied with the result and in proof of this fact, we append hereto the statement of B. C. MORRISON, Esq. What is his character for truth, Mr. TALBOT? It shows, also, that you recognised yourself as a candidate for the nomination of the party, which you now bitterly denounce, as late as the 9th day of February, 1855. But we do not wish to prolong this article. We wish now, in conclusion, to call your attention to the points at issue between us.

1st. We charged that you had, through your public addresses, and by application to the officers of the Council, expressed a wish for an exposition of your connection with the Council at this place, was respectful in its tone, and temperate in its language. Your letter is replete with the bitterest denunciations, and wears throughout a most uncongressional tone—by no means such an one as we could have expected from a man boasting of his connection with his church, and publicly proclaiming himself to be a “Christian gentleman.” But to this we shall take no exception, much less resort in the same style. We have enough of charity to pardon much to disappointed ambition, and mortified pride, and shall content ourselves, therefore, by calling your attention to the *points of issue* between us, and after offering our proofs let the public decide whether we have misstated your connection with the order or you have attempted to deceive the public.

M. T. CHRISMAN,
JOHN COWAN,
W. C. ANDERSON,
Committee.

COLUMBIA, KY., June 11th, 1855.
Dr. T. R. DUNLAP, and others of Boyle
County, No. 77.

BRENTBURY:—This day, A. G. TALBOT, in a public speech, to a crowded audience in this town, in an explanation, or pretended explanation, of his connection with the order, with great vehemence, stated and *boastfully announced*, that he *courted, desired and defied* an exposition and investigation of his connection with the party. See the statement of S. G. SUNDAH, attached hereto. Of his character and standing, we suppose a remark need not be offered. In addition to this, M. T. CHRISMAN, who signs his name hereto, states, that on the day the Hon. Mr. CLARKE made his speech in Danville, you applied to him for the same, which he refused to give you for the reason expressed by him, that some of the members of the Council, whom he had consulted in relation to the matter of your request, objected to doing so, without the approbation of the Council itself. This reason was given you, and you then stated that you would make a publication, stating that you had demanded it, and it was refused. And even in your letter, now before us, you say that you have not the slightest objection to having a complete and full history of your connection with the order published.

In relation to the 2d point at issue between us, viz: “Are the facts charged upon you in that exposition true?”—we have to say, that you have neither denied the allegation that you voluntarily joined the order, voluntarily withdrew from it after the balloting for Congress had commenced, nor that you offered the preamble and resolutions stated, nor indeed any fact or circumstance material to our representation of your connection with the order, except the report of the speech, incorporated in it. Any proof, therefore, of them, (except as to the speech,) is unnecessary; your silence admits them; and we now here again, as was done to you in person before the publication of your letter, tender to you and your friends the records of the Council for examination, with the view of correcting any misstatement concerning you. We might state, however, what you will not deny, that the records of the Council were regularly made up in the Council room, publicly read and signed by the American order. He spoke of himself as a candidate for the nomination made by them.

ROBT. C. MORRISON.

JULY 12, 1855.

I saw A. G. TALBOT a day or two after he had made the proposition to Boyle Council, No. 77, to postpone the time of holding the Convention. He was on his way to Stanford and Crab Orchard. He stated to me that the Council had complied with his request, and he was then satisfied he would get the nomination as the American candidate. I have heard him frequently say, that he was in favor of the principles of the party, and would abide the nomination made by them.

ROBT. C. MORRISON.

JULY 12, 1855.

I was present in the Council on the evening of the 8th day of February, and heard Mr. A. G. TALBOT offer and read the resolutions attributed to him in the report of the Committee of Boyle Council, and advocate their adoption by the Council. He openly avowed himself in favor of American principles, and pledged himself to abide the nomination of a candidate for Congress, to be made by the American order. He spoke of himself as a candidate for the nomination made by them.

J. T. BOYLE.

JUNE 26th, 1855.

To A. G. TALBOT, Esq.:

The undersigned heard the speech made by you in Council, attributed to you in the report of the Committee of Boyle Council, heretofore published, in which you are represented upon the adoption of a Resolution amongst other things, directing a ballot to be taken for a Representation to Congress from this district, to have made use of these remarks:—

That the principles of the American party you had sucked from your mother’s breast—that you were born with them, and would live and die by them—that you had plucked them from your infancy, and that living or dying, you would adhere to them—that the progress of that party was onward, and was bound to be a glorious one—and that the allied powers of Europe, with Roman Catholicism at the head, could not prevent its overwhelming success—that you were neither a Democrat or Whig, but an American, and you could not and would not run as the candidate of any other than the American party—and that the questions involved were of more consequence than any or all which had hitherto divided the two great political parties.

And lastly, were you a candidate for the nomination before the order? This you do not deny in your letter to the *Democrat*, but in your letter to “Dear Thwaites,” published some few weeks since, you had this expression—“There had been no test made in the Councils by which I could possibly infer that I would not have received the nomination in Boyle if I HAD DESIRED IT,” thereby clearly undertaking to make the impression that you were not a candidate, and seeking their suffrage? Do candidates use the people? Please repeat one of the speeches you made against the order for the benefit of your friends. Really, Mr. TALBOT, the thing is too preposterous. You have not yet perfected yourself in the art of legerdemain, and your tricks are easily detected by your audience.

MISCELLANEOUS.

A Startling Fact.

The result of the recent election in this State furnishes a most powerful argument in behalf of the defeated party, presenting as it does a striking illustration of the fact that foreigners and Catholics do to all intents and purposes control our elections. The ten thousand majority rolled up for Henry A. Wise, and over which the Democratic papers fire their "big guns," are the votes of foreigners and Catholics—not the native born sons of the Old Dominion. In 1850, there were upwards of 20,000 foreigners in Virginia, and since that time the number has largely increased. It is fair to presume that at least one-half of this number voted in the last election, and ninety-nine out of every hundred votes for Henry A. Wise. In other words, of the native-born citizens of Virginia, a majority cast their votes with the American party, for Thomas S. Flournoy. These facts that cannot be denied, prove conclusively that the foreigners and Catholics hold the balance of the power in Virginia, and thus have our elections completely in their own hands. They govern the native-born sons of the soil—the priests govern them, for the most part—the bishops govern the priests, and the Pope of Rome governs the bishops. And yet the opposition ridicules the idea of any danger to our institutions and our religious liberties from foreigners and Catholics.

With such startling facts as are presented above, startling the intelligent people of Virginia full in the face, why need the American party despair of ultimate success? Surely the people are not so blinded by party zeal as to submit much longer to such a humiliation. Facts are stubborn things, and the fact is, foreigners are our masters in Virginia. The eyes of the people must be opened to the alarming truth, for "truth is mighty and will prevail."—*Staunton Spectator*,
